COURSE OF STUDY.

The Course of Instruction for the State Normal Schools of Pennsylvania, approved by the State authorities, embraces two distinct courses of study: *The Elementary Course*, and the *Scientific Course*.

THE ELEMENTARY COURSE.

Language.—Orthography; Reading and Elocution; English Grammar; Composition; Outlines of Rhetoric, and English Classics; Elements of Latin, including the First Book of Cæsar, through the Helvetian War.

Mathematics.—Arithmetic; Elementary Algebra; Plane Geometry, including the circle.

Natural Science.—Geography, including the leading principles of Physical and Mathematical Geography; Physiology; Natural Philosophy; Botany.

History.—History of the United States; Constitution of the United States.

The Arts.—Penmanship; Drawing; Vocal Music; Bookkeeping.

Professional Studies.—School Economy; Methods of Instruction; Mental Philosophy.

Practice of Teaching.—This includes at least forty-five minutes daily practice in the Model School, for one-half of a school year, and two meetings each week for the discussion of the Practice of Teaching.

THE SCIENTIFIC COURSE,

In addition to the branches required in the Elementary Course, embraces the following:

Language.—English Literature, as much as in Shaw, and

the study of English Classics, for one-third of a school year. Four Books of Cæsar.

Mathematics.—Geometry; Higher Algebra; Plane and Spherical Trigonometry; Surveying; Analytical Geometry, and Calculus.

Natural Science.—Chemistry; Natural Philosophy; Zoology; Geology and Astronomy.

History.—General History.

Professional.—Mental and Moral Philosophy; Logic; Methods of Instruction.

Substitutions.—Students may substitute for Spherical Trigonometry, Analytical Geometry, Calculus, the Mathematical parts of Natural Philosophy and Astronomy, and the latter third of Higher Algebra—an equivalent amount of Latin, Greek, French, or German.

MISCELLANEOUS PROVISIONS.

Pupils to graduate in a Normal School, must attend twenty-one weeks.

Pupils applying for a diploma in either course, must be examined in all the studies of that course.

Thesis.—In each course a thesis must be written upon some educational subject.

At examination, a paper stating that the candidates have completed the course of study for Normal Schools, have taught the required time in the Model School, and have been examined and approved by the Faculty, shall be presented to the Board of Examiners.

Applications for second diplomas must be presented to the Board of Examiners at their regular session.

EXAMINATIONS.

The examinations for graduation are conducted by the Faculty of the School and a Board of Examiners.

The Faculty first examine the candidates, and if they find them qualified, refer them to the Board.

The State Superintendent, (or the Depnty Superintendent) who is president of the Board; two Principals of State Normal Schools, and two County or City Superintendents of the First District, constitute the Board of Examiners.

The final examination of the Graduating Class occurs about two weeks before commencement; the date is fixed by State Superintendent.

DIPLOMAS.

A student graduating in the Elementary Course will receive a diploma, in which will be named the branches he has studied, and by which he will be constituted *Bachelor of the Elements*; the diplomas of those graduating in the Scientific Course will enumerate the distinctive branches of this course, and constitute their holders, *Bachelors of the Sciences.*

Regular graduates who have continued their studies for *two years*, and who have practiced their profession for *two annual terms*, in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper County Superintendent, may receive second diplomas, constituting them *Masters* in the several studies embraced in the Course in which they graduated, and conferring upon them corresponding professional degrees, as follows:

Master of the Elements.
Master of the Sciences.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant diplomas or State Certificates to *actual teachers in Common Schools*, without their having attended the Normal Schools as students. The following are the conditions upon which these diplomas will be granted:

1. Each applicant must be twenty-one years of age, and of good moral character, and he must have taught successfully during three successive annual terms in Common Schools in this State, the proof of age to be the declaration on honor of the applicant; and of moral character and the satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. The examination to be in the Elementary or Scientific

Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal Schools, and approved by the Superintendent of Public Instruction, or in such other studies as may by the Board of Examiners be deemed equivalent.

3. Any person obtaining a certificate in the Elementary Course may, at the next or any succeeding annual examination, be examined for the higher course, and obtain the proper certificate.

4. Each applicant to prepare and present to the Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, to be retained at the School where the examination takes place.

5. The examination and certificate to be without expense to the applicant, and the certificate to be full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

SCHEDULE OF STUDIES.

(AS ARRANGED FOR THIS SCHOOL.)

MODEL SCHOOL.

Pupils finishing this course are prepared to enter the Junior Year of the Normal Department.

D Class.—Language Lessons, Reading, Spelling, Fundamental Rules of Arithmetic, Geography.

C Class. — Language, Reading, Spelling, Arithmetic through Common Fractions, Geography, Map Drawing, Oral Lessons in U. S. History.

B Class.—Language, (including the elements of Grammar and Rhetoric,) Arithmetic, Geography, Map Drawing, U. S. History, Lessons in Literature and Composition, Latin, Reading.

A Class.—Grammar, Arithmetic, Algebra, Physical Geography, Natural Philosophy, Latin, Botany, Literature, and Composition.

☞ Writing, Drawing, Spelling, and Vocal Music, are continued throughout the course.

ELEMENTARY COURSE.

PREPARATORY YEAR.

First Term.—Orthography, Grammar, Arithmetic, Geography, Reading, Penmanship, Composition, Drawing.

Second Term.—Reading, Penmanship, Orthography, Latin, Algebra, Composition, Drawing.

JUNIOR YEAR.

First Term.—Elocution, Penmanship, Jones's Latin Lessons, Algebra, Physiology, School Economy, Drawing.

Second Term.—Cæsar, Elocution, Botany, History (U. S.), Algebra, Constitution, Drawing, Theory of Teaching, English Literature.

SENIOR YEAR.

First Term.—Grammar, Mental Philosophy, Arithmetic, Geometry, Natural Philosophy, English Literature, Teaching in Model School, Vocal Music, Drawing.

Second Term.—Methods of Instruction, Teaching in Model School, Book-keeping, Studies Reviewed.

Each Senior is required to teach in the Model School forty-five minutes a day for one-half the school year.

SCIENTIFIC COURSE.

After completing the Elementary Course, students can graduate in this course in two years. The studies required are given on pages 19 and 20.

LOCATION, BUILDING, ETC.

The West Chester State Normal School was founded in the year 1871, by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

West Chester is a beautiful town of over 7,000 inhabitants, the county seat of Chester county, and is pre-eminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two railroads, over which trains run at all hours of the day. Both of these are controlled by the Pennsylvania Railroad, and all trains for West Chester leave the new Broad Street Depot. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where close connections are made with the trains on the main line.

THE BUILDING

Is situated on the south side of the Borough, half a mile from the Court House, is new, of stone, 200 by 112 feet, four stories high, with basement. It is heated throughout with steam radiators *placed in the rooms*, rendering them comfortably warm during the coldest weather.

As this building has been found to be too small to accommodate all who have applied for admission, a new wing, 105 by 53 feet is now in process of erection. The wing will accommodate one hundred more students. The building is surrounded by ten acres of beautiful grounds.

STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, have high ceilings, are well ventilated, and are all thoroughly heated by direct steam radiation. The rooms are comfortably furnished, have single beds, and the ladies' rooms are all partly carpeted, have wash stands, bowls, and pitchers, and are furnished with woven-wire mattresses.

ADMISSION, GOVERNMENT, &C.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted. They may enter at any time during the Session, and will be charged from date of entrance till end of Session, unless by special agreement.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the School.

Students desiring to enter the Institution should make application to the Principal at as early a date as possible.

OUTFIT.

Pupils boarding in the Institution will be furnished with single beds, bedding and wardrobe, and are expected to furnish two pairs of blankets, or an equivalent, looking glass, towels, and table napkins; also an umbrella and a pair of rubber over-shoes. Many of the students provide carpet for their rooms, thus giving them a very neat and home-like appearance.

GOVERNMENT.

Self-Government is regarded as the only true government, and nothing will be required except that which a *true sense of honor and self-respect* would naturally demand from the individual.

Any pupil whose influence is found to be vitiating, will be removed from the school.

MORAL AND RELIGIOUS CULTURE.

The intercourse of the students with each other and with the Instructors, most of whom reside in the Institution, will

be regulated in conformity with the usages of refined and cultivated society.

All students are required to attend the opening exercises of the School in the chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians.

LABORATORY.

The new laboratory, recently completed, renders the facilities for Analytical Chemistry very complete ; the department is under the charge of a practical chemist, who has devoted years to this important branch. A full course in qualitative analysis, blowpipe analysis of minerals, &c., is given each term. Students receive instruction without extra charge, but are required to pay for chemicals used, breakage, &c.

APPARATUS.

The Institution is supplied with Philosophical and Chemical Apparatus of the most approved kind, a large addition having been made recently. Students in General Chemistry will be charged at the rate of two dollars per term, for materials used in experiments before the class.

MODEL SCHOOL.

The Model School is a most important adjunct to the Normal School. If a Normal School fails to inculcate good methods of teaching, it fails to accomplish the great end for which it was established. The Model School should, therefore, be what the name implies, a school in which teacher-students may witness the best methods of instruction, and learn to practice them.

This school is conducted with a view to produce the best results, both in the progress of the pupils, and the attainment of correct methods by the student-teachers. Before students are allowed to teach classes in this department, they are required to witness the plans adopted by the Principal and her Assistant. They are then required to teach under the constant supervision of the Principal of the Model School. Two meetings each week are held for the purpose

of correcting errors in teaching and suggesting new methods. In addition to the course of training in the common branches, a full course in object teaching and Kindergarten instruction is given by the Principal of the department, who for two years studied the system with Miss Louisa Frankenberg, (a former pupil of Froebel and assistant teacher in his original Kindergarten) and for six years was practically engaged in Kindergarten teaching.

In the wing recently erected, a hall has been set apart for pupils of the Model School boarding in the building. These pupils will be under the special care of the Principal of this department. The advantages offered are such as to render this school unusually attractive to those who have young children to send away to school. The number of boarders in this department is limited.

LIBRARY AND READING ROOM.

There is a well selected library belonging to the school, to which students have access, subject to regulations adopted by the Trustees.

The reading tables are supplied with the leading periodicals of the country, together with the city daily papers, and the local county newspapers, to which students have free access when not on duty required by the school.

LITERARY SOCIETIES.

There are connected with the school, two flourishing Literary Societies, The Moore Literary Society, and The Aryan Society, composed of students and members of the Faculty.

The value of these societies as adjuncts of education, is so great that students cannot afford to neglect the opportunities they furnish for literary and oratorical culture.

MUSEUM.

The museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was commenced in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. Wm.

Darlington, and David Townsend, now in this Museum, are conceded to be two of the most accurate and extensive private collections ever formed in this country.

A large room, 36 feet in length by 32 feet in width, has been fitted up for the display of this valuable collection, which will hereafter be more accessible to special students of Science and Natural History.

TEXT BOOKS.

Text Books are sold to students at Philadelphia retail prices; but all books used in the Elementary Course are furnished on rent to those preferring it.

INSTRUMENTAL MUSIC.

The Piano is taught in accordance with the most improved modern methods, and by instructors of eminent qualifications. The pupil is made to feel that an understanding of the art of music, and a mastery of this instrument, constitute no light accomplishment, and cannot be attained by any short and easy way. All the work done, therefore, is upon a plan which contemplates the higher results of musical culture. We cannot encourage the prevailing impatience so fatal to genius and lasting success, which works only under the *stimulus* of immediate results. No pupil is led to expect a single triumph of attainment except as the fruit of patient and long continued labor.

APPLICATIONS FOR TEACHERS.

Frequent applications are made to the Principal for well trained teachers, and it will be our aim to supply the demand as far as possible. Directors, and others desiring to employ teachers for the higher grade of schools, will please remember that we are better able to supply their wants near the end of each term.

CALENDAR.

The school year is divided into two sessions. The Winter Session will begin *Monday, August 27th,* and continue *twenty-eight weeks.* The Spring Session will begin *Monday, March*

24th, and continue *fourteen weeks*. There will be a vacation of one week at Christmas, and one of the same length between the sessions in March.

TERMS.

Tuition and board, including heat, light, and washing, for the Winter Session, $140; *one-half payable in advance*, the remainder on the fourth of December; for a period less than the session, per week, $5.25. For the Spring Session, $65 *payable in advance;* for a period less than the session, per week, $5.00.

For tuition alone, for Winter Session, $45, *one-half payable in advance*, the remainder at the fifth of December; for a period less than a session, per week, $1.65. For Spring Session, *in advance*, $20; for a period less than a session, per week, $1.50. For tuition in Model School, Winter Session, $20; Summer Session, $10. For a time less than a session, per week, 80 cents.

The "State Aid" of fifty cents a week is deducted from the bills of those who comply with the conditions stated *below*, making the total cost to teachers $184 per year. The State Aid is liable, however, to be reduced somewhat. See next page.

Teachers whose schools do not end until after the beginning of the session, are charged by the week at *term rates*, if they enter as soon as their schools close.

EXTRA CHARGES.

For instruction on the Piano or Melodeon, with use of instrument, for Winter Session, $34; for Spring Session, $16. For lessons on other instruments, special arrangements must be made with the Professor of that department.

There are no other extra charges except the cost of the chemicals used by those studying chemistry, before referred to.

DEDUCTIONS.

Students absent two consecutive weeks, or longer, on account of personal sickness, are entitled to full reduction for the time lost.

Those leaving for any other cause will be required to pay

for half a term, unless by special agreement with the Principal.

All bills must be settled with the Principal, who acts in behalf of the Trustees. Bills for one term must be settled before a student will be permitted to enter upon the next term, unless by special arrangement.

STATE APPROPRIATIONS TO STUDENTS AND GRADUATES.

By a recent Act of the Legislature, the following appropriations are made by the State to Normal Students and Graduates.

1. Each student over *seventeen years* of age who shall *sign a paper* declaring *his intention* to teach in the Common Schools of the State, shall receive the sum of FIFTY CENTS *per week* toward defraying the expenses of tuition and boarding.

2. Each student over *seventeen years* of age, who was *disabled in the military or naval service* of the United States, or of Pennsylvania, or whose *father lost his life* in said service, and who shall sign an agreement as above, shall receive the sum of ONE DOLLAR per week.

3. Each student, who, *upon graduating*, shall sign an agreement to teach in the Common Schools of the State *two full school years*, shall receive the sum of FIFTY DOLLARS.

4. Any student to secure these benefits, must attend the School at least *twelve consecutive weeks.* These benefits will be deducted from the regular expenses of board and tuition.

If the appropriation by the State is not enough to meet the demand, the amount is distributed *pro rata.* It has been customary for the Legislature to appropriate a certain sum to provide for these payments. Frequently this appropriation is not large enough to pay the full State aid for the *spring sessions.* For the spring session of 1881, 60 per cent. of the State aid was paid; for that of 1882, 44 per cent. was paid. The same amount is paid at all of the State Normal Schools. The State aid is always paid in full for the Fall and Winter term.

VISITORS.

Calls on the pupils at other times than during the hours of recreation, seriously interfere with the objects they have in view, and therefore, will not be allowed except in case of necessity; and parents are especially requested not to permit their children to be absent from any school duties to visit home or elsewhere. Persons desiring to visit the school are cordially invited to do so at any time.

TEXT BOOKS USED.

Readers—Monroe, American Educational, Franklin, Lippincott; *Penmanship*—Spencerian; *Arithmetic*—Brooks, Ficklin; *Geography*—Harpers, Warren, Guyot; *Grammar*—Reed & Kellog; *Geometry*—Brooks; *Algebra*—Robinson, Wentworth; *Book-keeping*—Lyte; *Physiology*—Dalton; *Natural Philosophy*—Sharpless & Philips; *Botany*—Wood, Gray, Flora Cestrica; *Chemistry*—Eliot & Storer, Douglas & Prescott; *Zoology*—Nicholson, Orton; *Geology*—Dana's Text Book; *Rhetoric*—D. J. Hill; *History, U. S.*—Taylor; *Constitution, U. S.*—Townsend; *Drawing*—Walter Smith; *Vocal Music*—L. W. Mason; *School Economy*—Wickersham; *Methods of Instruction*—Brooks; *Mental Philosophy*—Wayland; *Trigonometry and Surveying*—Davies; *Analytical Geometry and Calculus*—Loomis; *Astronomy*—Snell's Olmstead, Sharpless & Philips; *Latin*—Jones's First Lessons, Harkness's Grammar, Cæsar, and Prose Composition, Chase & Stuart's Cicero's Orations, Virgil, Sallust, Cicero De Senectute, Livy, Horace; *Greek*—Harkness's First Book, Hadley's Grammar, Boise's Anabasis, Homer; *German*—Ahn-Ehlschlæger's German Method; *French*—Otto's Grammar and Reader; *English Literature*—Trimble, Trimble's Chart, Swinton's Studies, Dana's, Whittier's, Bryant's and Hudson's Selections, Chambers's Cyclopedia; *Orthography*—Raub.

REGULATIONS.

1. Every student is requested on entering, to give the Principal information in regard to the following particulars: Whether he designs fitting himself for a teacher; what length of time he designs remaining in the Institution, and whether he desires to pursue the regular course of graduation.

2. Students are considered members of the school until the Principal is duly notified of their withdrawal.

3. Students boarding in the school are requested to provide themselves with *slippers*.

4. The hours regularly assigned to study are to be faithfully devoted to the preparations of the exercises required.

5. Students are allowed to walk for exercise in the vicinity of the school, but no one is permitted to visit the town or otherwise absent himself, without permission from the Principal. Absence from the premises after sunset is not permitted. New acquaintances outside of the school must not be cultivated.

6. Permission to be absent from a recitation must always be obtained from the teacher in charge of the class, *before* the absence occurs.

7. Boarding students who are not present at the beginning of the term, must send to the Principal a written explanation of their absence, or their rooms will be forfeited.

8. Every student must be present at the daily opening exercises of the school, and at all general exercises in the Chapel, unless excused.

9. All objectionable books, papers and cards, found in the possession of students, will be taken and destroyed.

10. Disorderly conduct in the building is prohibited. Each student will be held accountable for any disturbance or damage in his room.

11. No nails must be driven into the walls or ceiling, or alterations be made in the windows, doors, or any appendage of the rooms, without permission from the *Matron*.

12. Students are not allowed to visit one another's room during the regular hours of study, and no change of rooms must take place without permission from the Principal.

13. Each student of instrumental music will have regular hours assigned for practice, during which time no spectator must be present to interrupt the exercises or divert the attention.

14. All students who are tardy, unnecessarily, at meals, must forfeit them, and no one must leave before the rest with-

out good reason, and permission from the person sitting at the head of the table. Any student sick or indisposed, and requiring attention, must have himself reported at once to the Matron.

15. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but they will not be allowed to assemble in the Chapel, Recitation Rooms, or Halls, during recreation hours, for conversation, except when permission is given. Neither sex will be permitted to trespass upon that portion of the building assigned to the other.

16. No lady or gentleman attending this Institution will meet, walk, or ride with a person of the opposite sex, except in cases of necessity, and then only with the permission of the Principal.

17. Students will not visit the dining room at any other time than meal-time; neither the kitchen nor the music rooms without permission.

18. The use of tobacco in any form is strictly prohibited in the building or on the grounds.

19. Students will be required to attend public worship each Sabbath morning, at such places as their parents or guardians designate.

20. Students are not permitted to pursue a greater number of studies at a time than, in the judgment of the Faculty, they can study with profit.

21. Students must furnish towels, napkins, looking glass, and two pairs of blankets, and have all articles of clothing *distinctly marked*. Each student is permitted to have twelve pieces washed each week without extra charge.
